PENNINGTON

EARTHWORK
UNDERGROUND UTILITIES
CONCRETE

EARTHWORK, UNDERGROUND UTILITIES & CONCRETE UNDER ONE CONTRACT

ONE TEAM. MULTIPLE CAPABILITIES.

From mass grading and wet utilities to foundations, paving and flatwork, Pennington self-performs the site package with our own crews, equipment and operators, so the schedule and the handoffs stay with one team on commercial, institutional, aviation, multifamily and public projects across Texas.

OUR CAPABILITIES

EARTHWORK

- Clearing, mass grading and building pads
- Subgrade stabilization
- Excavation, trenching, backfill and compaction

UNDERGROUND UTILITIES

- Water, sanitary sewer and storm lines
- Electrical duct banks and conduit
- Vaults, manholes and utility crossings

CONCRETE CONSTRUCTION

- Foundations, building pads and slabs
- Paving, parking lots, curbs and sidewalks
- Equipment pads and commercial floors

BUILT TO SUPPORT YOUR PROJECT

Family-owned and based in Euless since 2010. One contract for dirt, pipe and concrete means fewer handoffs, fewer gaps and one team accountable for the schedule.

ALSO OFFERING

Development Services: grading, utilities, paving and flatwork in one schedule, from raw ground to a buildable site. **Commercial Flooring:** interior slabs and finished concrete floors.

Founders Reserve
Heath, TX · **Developer:** Savannah

PROJECT 04

Passport Park
DFW Airport · **GC:** Oncor

PROJECT 05

Arbor Terrace
Frisco, TX · **GC:** Regent Construction Group

PROJECT 06

YOUR PROJECT NEXT

Site work, utilities, paving and foundations. Let's talk about your scope.

OUR EQUIPMENT & FIELD RESOURCES

300+ PIECES OF EQUIPMENT

85 Excavators	**41** Skid Steers & Track Loaders	**23** Wheel Loaders & Dozers	**10** Haul Trucks	**12** Water Trucks
40 Rollers & Compactors	**39** Concrete Finishing & Saws	**15** Telehandlers, Forklifts & Lifts	**35** Breakers, Generators & Pumps	**60+** Excavator Buckets, 18"–72"

Plus: Topcon GPS grade control · laser screed · motor grader · backhoes · UTVs

IN-HOUSE MECHANICS. MINIMAL DOWNTIME.

Equipment breaks down on every job site. What matters is how fast it gets back to work. Pennington employs its own mechanics and keeps every machine on a scheduled preventive maintenance program, so problems get caught in our shop, not on your schedule. When something does go down in the field, our team responds directly. No waiting on a rental yard or outside repair shop.

- ✓ **In-house mechanics and field service trucks**
- ✓ **Scheduled preventive maintenance on every machine**
- ✓ **Fast in-field repair response to keep crews working**

LET'S WORK TOGETHER
